PRINT OPTIONS

Thermal Imprint - Full-color thermal graphics are adhered to the surface of the stock fabric colors.

Dye Sublimation - White fabric is dyed with full-color graphics that become part of the fibers.

Files will be printed as submitted, in CMYK, unless a PMS color is specified.

One table throw to cover the two most common table sizes! Wrinkle resistant polyester poplin fabric covers all four sides of your table. It features hook and loop attachments that make it easy to switch between an 8' draped table throw and a 6' fitted table throw. Fabric is FR rated (flame retardant treated) for exhibit halls.
