

SIGNATURE CA500 CASE SETUP INSTRUCTIONS

1. Place case flat on the floor and undo straps.

2. Lift lid and remove the contents and set aside.

3. Place the small case lid (side without wheels) on the floor. Insert the vertical support poles in place firmly.

4. Place case lid on a clean area over the fabric print. Make sure the zipper is in the middle and the zipper tab is at the top.

5. Now, like pulling your socks up, start pulling the fabric up so that the elastic overlaps the edges of the top lid.

6. Make sure all wrinkles are smooth and the graphic looks straight.

7. Place the lid on top and press to secure.

8. The zipper on the back is used to access storage.

Have a successful show!
